

ACKNOWLEDGEMENT OF NOTIFICATION
OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the **INSTRUCTIONS FOR FILING NOTIFICATION** before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

Attention: Mr. Julio Morales-Sanchez
Director, Enforcement Division

Dear Sir:

In response to your February 5, 1981 letter (copy attached) please refer to our October 28, 1980 letter (copy also attached) where an explanation for the confusion is given.

We believe that it is likely that a computer has again prompted the form letter. May we request that a correction be made so that the form letters will no longer be necessary.

Very truly yours,

Roger J. Wolfe

Dear Sir:

Early in October, 1980 the Region II office of the United States Environmental Protection Agency ("EPA") sent you a letter inquiring about any activities conducted at your facility that involved hazardous wastes. This information was requested pursuant to Section 3007 of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. §6927. To date, we have not received a reply from you.

As stated in our earlier letter, we believe that you or your company handles hazardous wastes, as defined in RCRA and its accompanying regulations. However, we need additional information from you so that we can accurately determine your status. If you handle hazardous wastes in sufficient quantities to come under this Agency's regulatory control, you are legally required to notify the Agency of your activities and you must comply with certain requirements. If you do not handle hazardous wastes in quantities sufficient to be covered by our regulations, or if you do not handle hazardous wastes at all, this information should also be provided to us.

Facilities which generate, transport, treat, store or dispose of sufficient quantities of hazardous wastes without notifying EPA or without complying with EPA regulations are subject to fines of up to \$25,000 for each day that a violation exists. Furthermore, parties who did not answer our earlier letter and who fail to answer this letter and who are later found to be handling hazardous wastes can also be subject to fines of up to \$25,000 per day of violation. Therefore, we request that you answer the following questions.

First, do you handle any "hazardous wastes" as this term is defined in RCRA and the regulations promulgated under RCRA (regulations defining hazardous wastes were published in the Federal Registers of May 19, 1980; July 16, 1980; October 30, 1980; November 12, 1980; November 17, 1980; November 19, 1980 and November 25, 1980)? If you do handle such hazardous wastes, what is the greatest quantity of hazardous wastes you handle in any one month? Please identify the wastes by type, characteristics, components and/or production process.

AGENCY ACTION

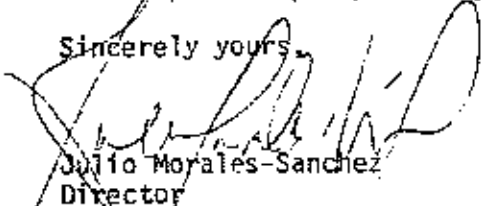

Your response to this letter should be sent to:

Permits Administration Branch
U.S. Environmental Protection Agency
Region II
26 Federal Plaza, Room 432
New York, New York 10278

Your response should be returned within 14 days of your receipt of this letter and should be signed by an authorized responsible officer of your firm. Failure to respond in a timely manner may, as outlined above, subject you to fines of up to \$25,000 per day of violation. Even if you believe that you do not handle hazardous wastes, it is important that you answer this letter and apprise us of that fact. If you have already notified EPA of your activity, or believe that you responded to a previous inquiry, please provide us with your EPA hazardous waste activity number as well as copies of your earlier submittals.

If you have any questions about this letter, please write the Permits Administration Branch at the above-listed address, or call (212) 264-7306 between the hours of 10am-12pm and 1pm-3pm Monday through Friday.

Sincerely yours,

Julio Morales-Sanchez
Director
Enforcement Division

NEW YORK, N.Y. 10007

Attn: Mr. Julio Morales-Sánchez
Director, Enforcement Division

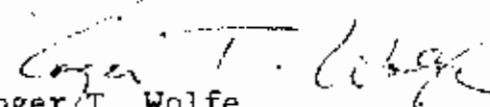

Dear Sir:

This is in response to your October 3, 1980, letter addressed to "Sterling Drug Co. Inc., 120 Lister Ave., Newark, NJ 07105". On October 12, 1980, I talked to Mr. Fiorello in your office, who advised me to write this letter with the enclosed attachments.

Sterling's plant facility at 120 Lister Avenue, Newark, NJ, is The Thomasset Colors division. A duly completed Notification Form 8700-12 was signed on August 8, 1980, and mailed to EPA shortly thereafter. The I.D. No. NJD000537274 was on the mailing label. Enclosed is a duplicate copy of that Notification. Also enclosed is the letter and form received from you.

We trust this satisfactorily answers your question.

Very truly yours,

Roger T. Wolfe

Dear Sir:

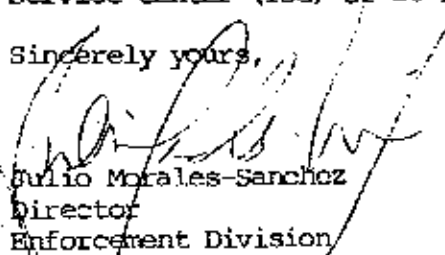

The United States Environmental Protection Agency ("EPA") regulates the handling of hazardous wastes under the Resource Conservation and Recovery Act ("RCRA") 42 U.S.C. §6901 et seq. Under Section 3010 of RCRA, 42 U.S.C. §6930, parties handling certain quantities of hazardous wastes (these wastes are characterized and listed in regulations which were published in the Federal Register of May 19, 1980, 45 FR 33084 et seq. and July 16, 1980, 45 FR 47832 et seq.) are required to notify EPA of their activities. Facilities handling wastes defined by the May 19, 1980 regulations were required to notify by August 18, 1980. Facilities handling wastes defined by the July 16, 1980 regulations are required to notify by October 14, 1980. We have not yet received a notification from you or your company.

Section 3007 of RCRA, 42 U.S.C. §6927, allows EPA to request certain information of parties who handle hazardous wastes. Based upon information available to this Agency, we believe that you or your company handles such hazardous wastes. Therefore, in order to determine the extent of your hazardous waste activity, and to determine whether you should have notified EPA pursuant to §3010, we require that you complete the questionnaire on the reverse side of this letter. Your completed form should be returned to us within 21 days of the date of this letter. The questionnaire must be completed and signed by a responsible official of your firm. If you have already notified EPA of your hazardous waste activity, please complete the questionnaire but indicate on the form your prior notification and list your EPA Identification Number, if available.

Your failure to respond to this letter in a timely manner may subject you to the initiation of enforcement action under Section 3008 of RCRA, 42 U.S.C. §6928. Such enforcement action may include the assessment of substantial penalties for continued non-compliance.

Completion of the questionnaire on the reverse side of this letter does not constitute notification under RCRA. If you have any questions on the contents of this letter or desire a notification package, please write the EPA Information Service Center (ISC) of 26 Federal Plaza, New York, New York 10278.

Sincerely yours,

Julio Morales-Sanchez
Director
Enforcement Division

Hazardous Waste Activity Questionnaire

1. Do you generate hazardous wastes as listed or characterized in the July 16, 1980 Federal Register?
 - ☐ Yes. If yes, specify the maximum rate of generation (kilograms/month)* _____.
 - ☐ No waste generated.
 - ☐ Wastes are generated but all wastes are not hazardous.
 - ☐ Hazardous wastes are generated, but are excluded under the provisions of 40 CFR Section 261.5, as indicated below:
 - ☐ Generate greater than zero but less than 1000 kilograms*/month of waste listed in 40 CFR Sections 261.31, 261.32 and 261.33(f).
 - ☐ Generate greater than zero but has less than 1 kilogram*/month of acutely toxic waste listed in 40 CFR Section 261.33(e).
 - ☐ Generate greater than zero but less than 10 kilograms*/month of container inner liners (see 40 CFR Sections 261.5(c) and 261.33(e)).
 - ☐ Generate greater than zero but less than 100 kilograms*/month of spill residues (see 40 CFR Sections 261.5(c) and 261.33(e)).
2. Do you transport or are hazardous wastes transported off your site?
 - ☐ Yes, hazardous wastes are transported off-site using company vehicles. Maximum amount (kilograms)* per month _____.
 - ☐ Yes, hazardous wastes are transported off-site utilizing a contract carrier. Specify carrier name(s) and amounts _____.
 - ☐ Yes, hazardous wastes are transported off-site but all wastes are excluded under 40 CFR Section 261.5.
 - ☐ No wastes are transported off-site.
 - ☐ Wastes are transported off-site but all wastes are not hazardous.
3. Do you receive or accept hazardous waste from other facilities for transportation to another site?
 - ☐ Yes. If yes, maximum amount at one time (kilograms)* _____.
 - Maximum amount from any one facility (kilograms)* _____.
 - Specify mode of transportation _____.
 - ☐ No.
4. Do you treat hazardous wastes?
 - ☐ Yes. Maximum amount treated (kilograms)* in any month _____.
 - ☐ No wastes treated.
 - ☐ All wastes treated are non-hazardous.
5. Do you store hazardous wastes?
 - ☐ Yes. Maximum amount stored (kilograms)* at one time _____.
 - Maximum length of storage (days) after receipt or receipt _____.

6. Do you dispose of hazardous wastes on your property?

- ☐ Yes. Maximum amount disposed on-site in one month (kilograms)* _____.
- ☐ No wastes disposed.
- ☐ Wastes are disposed but are non-hazardous.

7. Please indicate briefly the ultimate method of disposal of all wastes (hazardous and non-hazardous) from your facility. Attach separate sheet if necessary.

- ☐ Disposed on-site. Specify method _____.
- ☐ Disposed off-site. Specify method and name of disposal facility _____.

8. Have you already notified EPA of your hazardous waste activity?

- ☐ Yes. If yes, indicate EPA Identification Number if available _____.
- ☐ No.

NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, fill it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

GOVERNMENT AFFAIRS DEPARTMENT

October 28, 1980

United States Environmental Protection Agency
Region II
26 Federal Plaza
New York, NY 10278

Attn: Mr. Julio Morales-Sanchez
Director, Enforcement Division

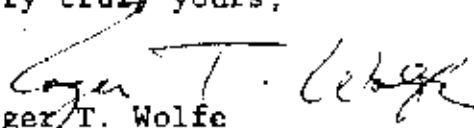

Dear Sir:

This is in response to your October 3, 1980, letter addressed to "Sterling Drug Co. Inc., 120 Lister Ave., Newark, NJ 07105". On October 12, 1980, I talked to Mr. Fiorello in your office, who advised me to write this letter with the enclosed attachments.

Sterling's plant facility at 120 Lister Avenue, Newark, NJ, is The Thomasset Colora division. A duly completed Notification Form 8700-12 was signed on August 8, 1980, and mailed to EPA shortly thereafter. The I.D. No. NJD000537274 was on the mailing label. Enclosed is a duplicate copy of that Notification. Also enclosed is the letter and form received from you.

We trust this satisfactorily answers your question.

Very truly yours,

Roger T. Wolfe
Assistant to the
Director of
Government Affairs

Dear Sir:

The United States Environmental Protection Agency ("EPA") regulates the handling of hazardous wastes under the Resource Conservation and Recovery Act ("RCRA") 42 U.S.C. §6901 et seq. Under Section 3010 of RCRA, 42 U.S.C. §6930, parties handling certain quantities of hazardous wastes (these wastes are characterized and listed in regulations which were published in the Federal Register of May 19, 1980, 45 FR 33084 et seq. and July 16, 1980, 45 FR 47832 et seq.) are required to notify EPA of their activities. Facilities handling wastes defined by the May 19, 1980 regulations were required to notify by August 18, 1980. Facilities handling wastes defined by the July 16, 1980 regulations are required to notify by October 14, 1980. We have not yet received a notification from you or your company.

Section 3007 of RCRA, 42 U.S.C. §6927, allows EPA to request certain information of parties who handle hazardous wastes. Based upon information available to this Agency, we believe that you or your company handles such hazardous wastes. Therefore, in order to determine the extent of your hazardous waste activity, and to determine whether you should have notified EPA pursuant to §3010, we require that you complete the questionnaire on the reverse side of this letter. Your completed form should be returned to us within 21 days of the date of this letter. The questionnaire must be completed and signed by a responsible official of your firm. If you have already notified EPA of your hazardous waste activity, please complete the questionnaire but indicate on the form your prior notification and list your EPA Identification Number, if available.

Your failure to respond to this letter in a timely manner may subject you to the initiation of enforcement action under Section 3008 of RCRA, 42 U.S.C. §6928. Such enforcement action may include the assessment of substantial penalties for continued non-compliance.

Completion of the questionnaire on the reverse side of this letter does not constitute notification under RCRA. If you have any questions on the contents of this letter or desire a notification package, please write the EPA Information Service Center (ISC) of 26 Federal Plaza, New York, New York 10278.

Sincerely yours,

Julio Morales-Sanchez
Director

Hazardous Waste Activity Questionnaire

1. Do you generate hazardous wastes as listed or characterized by the May 19, 1980 and/or the July 16, 1980 Federal Register?
 - ☐ Yes. If yes, specify the maximum rate of generation (kilograms/month)* _____.
 - ☐ No waste generated.
 - ☐ Wastes are generated but all wastes are not hazardous.
 - ☐ Hazardous wastes are generated, but are excluded under the provisions of 40 CFR Section 261.5, as indicated below:
 - ☐ Generate greater than zero but less than 1000 kilograms*/month of waste listed in 40 CFR Sections 261.31, 261.32 and 261.33(f).
 - ☐ Generate greater than zero but has less than 1 kilogram*/month of acutely toxic waste listed in 40 CFR Section 261.33(e).
 - ☐ Generate greater than zero but less than 10 kilograms*/month of container inner liners (see 40 CFR Sections 261.5(c) and 261.33(e)).
 - ☐ Generate greater than zero but less than 100 kilograms*/month of spill residues (see 40 CFR Sections 261.5(c) and 261.33(e)).
2. Do you transport or are hazardous wastes transported off your site?
 - ☐ Yes, hazardous wastes are transported off-site using company vehicles. Maximum amount (kilograms)* per month _____.
 - ☐ Yes, hazardous wastes are transported off-site utilizing a contract carrier. Specify carrier name(s) and amounts _____.
 - ☐ Yes, hazardous wastes are transported off-site but all wastes are excluded under 40 CFR Section 261.5.
 - ☐ No wastes are transported off-site.
 - ☐ Wastes are transported off-site but all wastes are not hazardous.
3. Do you receive or accept hazardous waste from other facilities for transportation to another site?
 - ☐ Yes. If yes, maximum amount at one time (kilograms)* _____.
Maximum amount from any one facility (kilograms)* _____.
Specify mode of transportation _____.
 - ☐ No.
4. Do you treat hazardous wastes?
 - ☐ Yes. Maximum amount treated (kilograms)* in any month _____.
 - ☐ No wastes treated.
 - ☐ All wastes treated are non-hazardous.
5. Do you store hazardous wastes?
 - ☐ Yes. Maximum amount stored (kilograms)* at one time _____.
Maximum length of storage (days) after generation or receipt _____.
 - ☐ No wastes stored.
 - ☐ Wastes are stored but all wastes are non-hazardous.
6. Do you dispose of hazardous wastes on your property?
 - ☐ Yes. Maximum amount disposed on-site in one month (kilograms)* _____.
 - ☐ No wastes disposed.
 - ☐ Wastes are disposed but are non-hazardous.
7. Please indicate briefly the ultimate method of disposal of all wastes (hazardous and non-hazardous) from your facility. Attach separate sheet if necessary.

8. Have you already notified EPA of your hazardous waste activity?

☐ Yes. If yes, indicate EPA Identification Number if available _____
☐ No.

26 Federal Plaza
New York, NY 10278

Attn: Mr. Julio Morales-Sanchez
Director, Enforcement Division

Dear Sir:

This is in response to your October 3, 1980, letter addressed to "Sterling Drug Co. Inc., 120 Lister Ave., Newark, NJ 07105". On October 12, 1980, I talked to Mr. Fiorello in your office, who advised me to write this letter with the enclosed attachments.

Sterling's plant facility at 120 Lister Avenue, Newark, NJ, is The Thomasset Colors division. A duly completed Notification Form 8700-12 was signed on August 8, 1980, and mailed to EPA shortly thereafter. The I.D. No. NJD000537274 was on the mailing label. Enclosed is a duplicate copy of that Notification. Also enclosed is the letter and form received from you.

We trust this satisfactorily answers your question.

Very truly yours,

Roger T. Wolfe

Enclosure

 U.S. ENVIRONMENTAL PROTECTION AGENCY
 NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act, Pub. Law 94-163, as amended).

Re: Thomasset Colors Division
EPA Identification Number NJD000537274
Your letter dated January 31, 1983, copy
enclosed, requesting compliance with
liability insurance requirements

Dear Mr. Simon

We would like to advise you that Thomasset Colors Division operates an elementary neutralization unit only, and is, therefore, exempt from TSD permit requirements at this time. The U.S. EPA Region II Permits Administration Branch notified us in October, of 1981, that review of our permit application did not demonstrate that the facility is one which is required to have a permit at this time, and, subsequently, the agency returned our permit application. We are enclosing a copy of this letter for your information.

We would also appreciate it if you could get in contact with the Permits Branch to possibly develop a mechanism to eliminate the Thomasset Colors Division's name from the listing of permitted facilities.

Should you have any further questions, please do not hesitate to contact me at (513)841-4091.

Very truly yours

Ms. Ulrike B. Weinstock, Manager
Safety, Health & Environment

Re:

EPA Identification number:
Facility located at:

Dear Sir or Madam:

The Environmental Protection Agency (EPA) is charged with responsibility for implementing the Solid Waste Disposal Act, as amended, 42 U.S.C. §6901 et seq. (the Act). [Note: Among the statutes amending the Act is the Resource Conservation and Recovery Act (RCRA), 90 Stat. 2795, P.L. 94-580 (1976).]

By notification you informed EPA that you conduct activities involving hazardous waste at the above-referenced facility. By the submittal of a Part A application pursuant to the requirements of 40 CFR Part 122, you requested a permit to conduct such hazardous waste activities.

40 CFR Part 265 sets interim status standards for hazardous waste treatment, storage, and disposal facilities. These standards apply until final administrative disposition of permit application for these facilities has been made. No such final disposition has been made with respect to your facility, and thus the standards of Part 265 apply thereto.

40 CFR §265.143 (amended on April 7, 1982) requires that by the effective date of the regulation (July 6, 1982) an owner or operator of a hazardous waste facility must establish financial assurance for closure of the facility, as well as post-closure monitoring. As of December 15, 1982, information available to EPA indicates that your facility had not submitted the documents necessary to comply with this requirement. You are therefore in violation of 40 CFR §265.143.

40 CFR §265.147 (amended on April 17, 1982) requires that by the effective date of the regulation (July 17, 1982) an owner or operator of a hazardous waste facility must establish financial responsibility for bodily injury and property damage to third parties caused by sudden accidental occurrences arising from operations of the facility. As of December 15, 1982, information available to EPA indicates that your facility had not submitted the documents necessary to establish compliance with the liability insurance requirement. You are therefore in violation of 40 CFR §265.147.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION II

26 FEDERAL PLAZA

NEW YORK, NEW YORK 10278

Subject: Nonregulated Facility

EPA ID No: *NSD000537274*

The Region II office of the U.S. Environmental Protection Agency (EPA) has received a Part A application from your facility for a permit to treat, store or dispose of hazardous wastes. This application was submitted pursuant to Section 3005 of the Resource Conservation and Recovery Act (RCRA) (42, USC §6925). The information supplied on the application, does not demonstrate that the facility is one which is required to have a permit at this time. Accordingly, the agency is returning the application.

A RCRA hazardous waste permit is required for facilities who treat, store or dispose of hazardous wastes. A permit is also required for generators and transporters who store regulated quantities of hazardous waste for more than 90 days and 10 days respectively. The bulk of generators and transporters of hazardous waste are exempt from the permit requirements. However, they are subject to the notification and manifest requirements of the RCRA regulations. They are also required to obtain and utilize an EPA Identification Number.

This letter does not operate to relieve you from your responsibility to comply with the requirements of the Act or to accompanying regulations. Should you believe that the information presented to the agency to date does not provide an accurate picture of hazardous waste activities at your facility, or if you have any further questions regarding the contents of this letter or the basis for our determination, please contact the EPA Information Services Center, Room 302, 26 Federal Plaza, New York, New York or call (212)264-3772.

I would also like to remind you that should you intend to initiate any hazardous waste activities in the future, you are required to obtain an EPA Hazardous Waste permit prior to the initiation of any operations.

Sincerely yours,

Richard A. Baker

Re: Application for a Hazardous Waste
Permit for Thomasset Colors, 120
Lister Avenue, Newark, New Jersey
07105, EPA Identification Number
NJD000537274

Gentlemen:

Further to our letter and RCRA permit application of November 18, 1980, we would like to provide the following additional information:

Thomasset Colors operates an elementary neutralization unit as defined by 40 CFR Part 260, Section 260.10(15a)(1) and (11) and is not otherwise engaged in the treatment, storage or disposal of hazardous waste. Accordingly, it is our understanding of the RCRA amendments published in the Federal Register of November 17, 1980 (40 CFR Part 122, Section 122.21(d)(2), that no permit is now required.

Very truly yours,

Ulrike B. Weinstock
Manager, Safety, Health & Environment

Re: Application for a Hazardous Waste Permit

Gentlemen:

Pursuant to the requirements of the Resource Conservation Recovery Act (RCRA), Public Law 94-580, we are submitting herewith completed Form 1, and Form 3 of Part A, Hazardous Waste Permit Application.

The neutralization process described in Form 3 is presently being converted to a totally enclosed process which we believe is excluded from permit requirements under 40 CFR Subpart B, 122.21 (2)(iv) of the RCRA regulations.

We expect this conversion to be completed in the near future and to send you written notification of its completion in due course. Because of the last minute discovery that the above-mentioned conversion could not be completed by November 19, 1980, we are unable to provide Topographic Map, Form 1, Item XI, and Facility Drawing and Photographs, Form 3, Items V and VI, at this time. They will be forwarded to you as soon as they are available in the event the conversion is not completed.

Sincerely,

Robert A. Harris
President

RAH/b1

*Anticipated completion date is January 15, 1981.

RE: Hazardous Waste TSD Facility Classification and Annual Report Requirements
(N.J.A.C. 7:26-7.6(f)2) for U.S. Army Comm Electr Matl Read Command,
Fort Monmouth, New Jersey, EPA ID NO. NJD000537274

Dear Mr. Dewar:

The Bureau of Hazardous Waste Engineering has reviewed your letter dated March 1, 1983 in which you indicate that the above referenced facility did not treat hazardous waste or store waste for greater than 90 days in calendar year 1982. This letter also follows up on a June 30, 1983 phone conversation between Mr. Desai, Environmental Engineer, GECOM and Mr. Walter Nedick of my staff. As confirmed by Mr. Desai, it is this Bureau's understanding that the above referenced facility seeks to be delisted from classification as a hazardous waste treatment, storage or disposal (TSD) facility to "generator only" status.

According to Bureau records supplied by the USEPA, the RCRA Part A permit application lists the following hazardous waste activities:

- A. (S01) storage in containers of 1700 gallons;
- B. (T01) treatment in tanks of 30,000 gallons per day of waste code D000.

As reported by Mr. Desai, the "T01" activity was discontinued in 1981, and had consisted of neutralizing wastes in tanks prior to sewerage the supernatant.

Item A

The Bureau has determined based on the information provided in your letter dated March 1, 1983 and telephone conversation with Mr. Desai that the above referenced facility is eligible for the S01 "delisting to generator only" status provided the following requirements of N.J.A.C. 7:26-9.3 are complied with:

- 1. All such waste is, within 90 days or less, shipped off-site to an authorized facility or placed in an on-site authorized facility, as defined at N.J.A.C. 7:26-1.4.

Thomasset Color Division, Newark, Essex County, New Jersey
EPA ID NO. NJD000537274

Dear Ms. Weinstock:

The Bureau of Hazardous Waste Engineering (the Bureau) has reviewed your company's response to the Department's January 12, 1983 "Notice of Violation Failure to Submit (TSDF) Annual Report" issued to the referenced company. You request that the above referenced facility be exempted from classification as a hazardous waste treatment, storage or disposal (TSD) facility on the basis of the amendments published under 40 CFR 122.21(d)(2), and that elementary neutralization units as defined by 40 CFR 260.10(15a)(i) and (ii) are exempt from TSD permit requirements at this time.

Although an elementary neutralization unit is excluded under RCRA, it is not excluded per se from the NJDEP hazardous waste management regulations. Under State regulations, your neutralization process and the sewerage of plant effluent may be regulated as an Industrial Waste Management Facility (IWMF) subject to NJPDES permitting, carried out by the Division of Water Resources.

Therefore, the Bureau will forward your correspondence to the Pretreatment Section of the Division of Water Resources (DWR) for their review. The DWR shall respond directly to your company on the status of your delisting request for its IWMF activity.

In the interim, the referenced facility presently remains listed as a TSD facility in the Department's records and is not relieved of its obligation to file annual reports pursuant to N.J.A.C. 7:26-7.6(f)2.

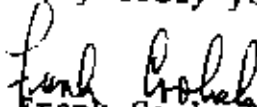

Ulrike B. Weinstock

RE: RCRA Declassification Request
EPA ID # NJD000537274

Dear Mr. Dewar:

This letter is in response to your request of March 1, 1983 for declassification as a TSD facility under the Resource Conservation and Recovery Act.

Since the elementary neutralization unit for which the Part A was originally filed is no longer in operation, your request is approved. Your facility is no longer included in the New Jersey Department of Environmental Protection's list of existing hazardous waste treatment facilities, and is hereby declassified as a TSD facility.

The discharge from the facility into the sewer is under the authority of the New Jersey Water Pollution Control Act, N.J.S.A. 58:10A-1.1 et seq. You are required to conform to the Rules and Regulations of the Northeast Monmouth Regional Sewerage Authority. However, you are not subject to the Industrial Waste Management Facility requirements of the NJDEP, as referred to in the July 22, 1983 letter to you from Mr. Frank Coolick of the NJDEP.

If there are any questions concerning this letter, please call me at (609) 292-4860.

Very truly yours,

Re: Application for a Hazardous Waste
Permit for Thomasset Colors, 120
Lister Avenue, Newark, New Jersey
07105, EPA Identification Number
NJD000537274

Gentlemen:

*get
moving
2/1/81*

Further to our letter and RCRA permit application of November 18, 1980, we would like to provide the following additional information:

Thomasset Colors operates an elementary neutralization unit as defined by 40 CFR Part 260, Section 260.10(15a)(i) and (ii) and is not otherwise engaged in the treatment, storage or disposal of hazardous waste. Accordingly, it is our understanding of the RCRA amendments published in the Federal Register of November 17, 1980 (40 CFR Part 122, Section 122.21(d)(2), that no permit is now required.

Very truly yours,

Ulrike B. Weinstock

Re: Application for a Hazardous Waste Permit

Gentlemen:

Pursuant to the requirements of the Resource Conservation Recovery Act (RCRA), Public Law 94-580, we are submitting herewith completed Form 1, and Form 3 of Part A, Hazardous Waste Permit Application.

The neutralization process described in Form 3 is presently being converted to a totally enclosed process which we believe is excluded from permit requirements under 40 CFR Subpart B, 122.21 (2)(iv) of the RCRA regulations.

We expect this conversion to be completed in the near future and to send you written notification of its completion in due course. Because of the last minute discovery that the above-mentioned conversion could not be completed by November 19, 1980, we are unable to provide Topographic Map, Form 1, Item XI, and Facility Drawing and Photographs, Form 3, Items V and VI, at this time. They will be forwarded to you as soon as they are available in the event the conversion is not completed.

Sincerely,

Robert A. Harris
President

RAH/b1

*Anticipated completion date is January 15, 1981.

U.S. ENVIRONMENTAL PROTECTION AGENCY GENERAL INFORMATION Consolidated Permits Program (Read the "General Instructions" before starting.)		I. EPA I.D. NUMBER F NJ D 00 05 37 274 3
II. POLLUTANT CHARACTERISTICS		
INSTRUCTIONS: Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column. If the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.		
SPECIFIC QUESTIONS	MARK "X" YES NO FORM ATTACHED	SPECIFIC QUESTIONS
A. Is this facility a publicly owned treatment works which results in a discharge to waters of the U.S.? (FORM 2A)	X	B. Does or will this facility (either existing or proposed) include a concentrated animal feeding operation or aquatic animal production facility which results in a discharge to waters of the U.S.? (FORM 2B)
C. Is this a facility which currently results in discharges to waters of the U.S. other than those described in A or B above? (FORM 2C)	X	D. Is this a proposed facility (other than those described in A or B above) which will result in a discharge to waters of the U.S.? (FORM 2D)
E. Does or will this facility treat, store, or dispose of hazardous wastes? (FORM 3)	X X	F. Do you or will you inject at this facility industrial or municipal effluent below the lowermost stratum containing, within one quarter mile of the well bore, underground sources of drinking water? (FORM 4)
G. Do you or will you inject at this facility any produced water or other fluids which are brought to the surface in connection with conventional oil or natural gas production, inject fluids used for enhanced recovery of oil or natural gas, or inject fluids for storage of liquid hydrocarbons? (FORM 4)	X	H. Do you or will you inject at this facility fluids for special processes such as mining of sulfur by the Frasch process, solution mining of minerals, in situ combustion of fossil fuel, or recovery of geothermal energy? (FORM 4)
I. Is this facility a proposed stationary source which is one of the 28 industrial categories listed in the instructions and which will potentially emit 100 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)	X	J. Is this facility a proposed stationary source which is NOT one of the 28 industrial categories listed in the instructions and which will potentially emit 250 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)

COMMENTS

II. FIRST OR REVISED APPLICATION

Place an "X" in the appropriate box in A or B below (mark one box only) to indicate whether this is the first application you are submitting for your facility or a revised application. If this is your first application and you already know your facility's EPA I.D. Number, or if this is a revised application, enter your facility's EPA I.D. Number in Item I above.

A. FIRST APPLICATION (place an "X" below and provide the appropriate date)

☒ 1. EXISTING FACILITY (See instructions for definition of "existing" facility. Complete item below.)

FOR EXISTING FACILITIES, PROVIDE THE DATE (yr., mo., & day) OPERATION BEGAN OR THE DATE CONSTRUCTION COMMENCED (use the boxes to the left)
8 7 0 0 9 1 5

☐ 2. NEW FACILITY (Complete item below.)

FOR NEW FACILITIES, PROVIDE THE DATE (yr., mo., & day) OPERATION BEGAN OR IS EXPECTED TO BEGIN
7 1 7 1 7 1 7 1

B. REVISED APPLICATION (place an "X" below and complete item I above)

☐ 1. FACILITY HAS INTERIM STATUS

☐ 2. FACILITY HAS A RCRA PERMIT

III. PROCESSES - CODES AND DESIGN CAPACITIES

A. PROCESS CODE - Enter the code from the list of process codes below that best describes each process to be used at the facility. Ten lines are provided for entering codes. If more lines are needed, enter the code(s) in the space provided. If a process will be used that is not included in the list of codes below, then describe the process (including its design capacity) in the space provided on the form (Item III-C).

B. PROCESS DESIGN CAPACITY - For each code entered in column A enter the capacity of the process.

1. AMOUNT - Enter the amount.

2. UNIT OF MEASURE - For each amount entered in column B(1), enter the code from the list of unit measure codes below that describes the unit of measure used. Only the units of measure that are listed below should be used.

PROCESS	PRO- CESS CODE	APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY	PROCESS	PRO- CESS CODE	APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY
Storage:			Treatment:		
CONTAINER (barrel, drum, etc.)	S01	GALLONS OR LITERS	TANK	T01	GALLONS PER DAY OR LITERS PER DAY
TANK	S02	GALLONS OR LITERS	SURFACE IMPOUNDMENT	T02	GALLONS PER DAY OR LITERS PER DAY
WASTE PILE	S03	CUBIC YARDS OR CUBIC METERS	INCINERATOR	T03	TONS PER HOUR OR METRIC TONS PER HOUR
SURFACE IMPOUNDMENT	S04	GALLONS OR LITERS		T04	GALLONS PER DAY OR LITERS PER DAY
Disposal:			OTHER (Use for physical, chemical, thermal or biological treatment processes not occurring in tanks, surface impoundments or inciner- ators. Describe the processes in the space provided; Item III-C.)		
INJECTION WELL	D79	GALLONS OR LITERS			
LANDFILL	D80	ACRE-Feet (the volume that would cover one acre to a depth of one foot) OR HECTARE-METER			
LAND APPLICATION	D81	ACRES OR HECTARES			
OCEAN DISPOSAL	D82	GALLONS PER DAY OR LITERS PER DAY			
SURFACE IMPOUNDMENT	D83	GALLONS OR LITERS			
	UNIT OF MEASURE CODE			UNIT OF MEASURE CODE	
GALLONS	G	LITERS PER DAY	ACRE-Feet	A	
LITERS	L	TONS PER HOUR	HECTARE-METER	H	
CUBIC YARDS	Y	METRIC TONS PER HOUR	ACRES	B	
CUBIC METERS	C	GALLONS PER HOUR	HECTARES	G	
GALLONS PER DAY	U	LITERS PER HOUR			

EXAMPLE FOR COMPLETING ITEM III (shown in line numbers X-1 and X-2 below): A facility has two storage tanks, one tank can hold 200 gallons and the other can hold 400 gallons. The facility also has an incinerator that can burn up to 20 gallons per hour.

LINE NUMBER	A. PRO- CESS CODE (from list above)	B. PROCESS DESIGN CAPACITY		FOR OFFICIAL USE ONLY	LINE NUMBER	A. PRO- CESS CODE (from list above)	B. PROCESS DESIGN CAPACITY		FOR OFFICIAL USE ONLY
		1. AMOUNT (specify)	2. UNIT OF MEA- SURE (enter code)				1. AMOUNT	2. UNIT OF MEA- SURE (enter code)	
X-1	S 0 2	600	G		5				
X-2	T 0 1	20	L		6				
1	S 0 2	80,000,000	G		7				
2					8				
3					9				
4					10				

III. PROCESSES (continued)

C. SPACE FOR ADDITIONAL PROCESS CODES OR FOR DESCRIBING OTHER PROCESSES (code "T04"). FOR EACH PROCESS ENTERED HERE INCLUDE DESIGN CAPACITY.

IV. DESCRIPTION OF HAZARDOUS WASTES

A. EPA HAZARDOUS WASTE NUMBER — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.

B. ESTIMATED ANNUAL QUANTITY — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

C. UNIT OF MEASURE — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS	P	KILOGRAMS	K
TONS	T	METRIC TONS	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

D. PROCESSES

1. PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed hazardous waste: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

- Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
- In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.
- Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below) — A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

LINE NO.	A. EPA HAZARDOUS WASTE NUMBER	B. ESTIMATED ANNUAL QUANTITY OF WASTE	C. UNIT OF MEASURE	D. PROCESSES	
				1. PROCESS CODES (0000)	2. PROCESS DESCRIPTION (if a code is not entered in 1.)

Responsible Party Remedial Action

MAY 13 1988

Mr. Vincent P. Dewar
Acting Facilities Engineer
US Army Communications - Electronics Command
Bldg. 167 SELHI-FE
Fort Monmouth, NJ 07003

Dear Mr. Dewar:

RE: Hazardous Waste Facility Classification of US Army Communications -
Electronics Command Facility, Fort Monmouth, Monmouth County, EPA ID
NO. NJD 000 537 274

This letter serves to acknowledge the Division of Water Resources letter of October 4, 1983 which exempted your former hazardous waste treatment in a tank activity (T01) from treatment/storage/disposal (TSD) status. Since, the T01 activity refers to elementary neutralization, it is excluded from hazardous waste facility standards and permit requirements.

The only other hazardous waste activity that was listed by the referenced facility on its Part A permit application was storage of hazardous waste in containers (S01). Since it was indicated to the Bureau of Hazardous Waste Engineering (BHWE) in your March 1, 1983 letter, that the accumulation of hazardous waste is for 90 days or less, this activity was delisted from TSD status. With the delisting of the S01 and the T01 activities, the BHWE now considers the U.S. Army Communications - Electronics Command facility in Fort Monmouth to be only a generator of hazardous waste.

As a generator, this facility may accumulate hazardous waste on-site without a permit for 90 days or less provided that you comply with N.J.A.C. 7:26-9.3(a), which includes the following requirements:

1. All such waste is, within 90 days or less, shipped off-site to an authorized facility or placed in an on-site authorized facility, as defined at N.J.A.C. 7:26-1.4.
2. The waste is placed in containers which meet the standards of N.J.A.C. 7:26-7.2 and are managed in accordance with N.J.A.C. 7:26-9.4(d).
3. The date upon which each period of accumulation begins is clearly marked and visible for inspection on each container.

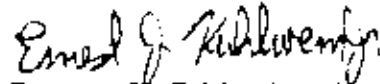

MAY 13 1988

4. The generator complies with the requirements for owners and operators of N.J.A.C. 7:26-9.6 and 9.7 concerning preparedness and prevention, contingency plans and emergency procedures as well as N.J.A.C. 7:26-9.4(g) concerning personnel training.

In regard to items 1, 2 and 3 of the above, it has been indicated to the BHWE, that during a November 24, 1987 site visit conducted by the EPA and NJDEP Superfund staff, some stored drums were found containing various unknown chemicals. Many of these drums were reported to have been rusted, and possibly stored on site for more than 90 days. In regard to this, please indicate to the BHWE that all accumulation of hazardous waste at the Fort Monmouth facility will conform to the 90 day accumulation requirements of N.J.A.C. 7:26-9.3(a), or clarify whether you desire to be a TSD facility for storage of hazardous waste in containers.

You must submit the requested information to the BHWE within thirty days from the date on this letter. If you have any questions, please contact James Koroniades of my staff at (609) 292-9880.

Very truly yours,

Ernest J. Kuhlwein, Jr., Acting Chief
Bureau of Hazardous Waste Engineering

done 5/20/88

Dear Mr. Miller:

RE: Hazardous Waste Facility Classification of Thomasset Colors Division,
Newark, Essex County
EPA ID NO. NJD 000 537 274, NJ Facility No. 0714B3

This letter serves to confirm that the hazardous waste storage in a tank activity (S02) of 80,000 gallons, which was the only hazardous waste activity that had been listed by the referenced facility on its RCRA Part A permit application filed with the USEPA in November, 1980, is excluded from the hazardous waste treatment/storage/disposal (TSD) facility standards and permit requirements of the Division of Hazardous Waste Management, N.J.A.C. 7:26-9 through 12, pursuant to the exclusions for an Industrial Wastewater Management Facility (IWMP) provided under N.J.A.C. 7:26-9.1(c)12 and 12.1(b)3.

This exclusion from the facility standards and permit requirements of N.J.A.C. 7:26-9 through 12 is based on the recent determination by the Bureau of Industrial Waste Management of the Division of Water Resources that the subject activity constitutes an IWMP. Furthermore, the Division of Water Resources has advised the Division of Waste Management that this subject activity also meets the criteria for elementary neutralization as defined in 40 CFR 260.10, since it corresponds to the neutralization of wastes which are hazardous only because they exhibit the characteristic of corrosivity. In regard to this, your company was informed by the Division of Water Resources on May 27, 1986 that IWMPs which are elementary neutralization units are also excluded from the requirement to obtain an individual NJPDES/SIU permit.

If the aforementioned conclusions are incorrect, or incomplete, please contact the Bureau immediately.

Assuming the aforementioned conclusions are correct, Thomasset Colors Division in Newark identified by the following USEPA identification number:

MAY 18 1983

NJD 000 537 274

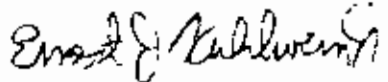

is excluded from applicable hazardous waste treatment, storage, or disposal facility permit and operating requirements under N.J.A.C. 7:26-1 et seq., including requirements for facility closure.

This written acknowledgement of the exclusion of the facility from the New Jersey Department of Environmental Protection's list of existing hazardous waste TSD facilities is based expressly on the review of the current file on Thomasset Colors Division in Newark. This letter makes no claim as to the extent and physical conditions of the actual hazardous waste activities presently occurring at the site mentioned above. To operate a hazardous waste facility without prior approval from the Department would constitute a violation of the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq.

The issuance of this delisting letter by the Department does not indicate, or imply, and should not be construed as a waiver of any requirements pursuant to the New Jersey Water Pollution Control Act, N.J.S.A. 58:10A-1 et seq. and regulations promulgated thereunder concerning the New Jersey Pollutant Discharge Elimination System, N.J.A.C. 7:14A-1 et seq. If your facility is in any of the regulated categories identified in the above cited regulation, you are hereby directed to apply for any and all permits necessary within ninety (90) days to the Division of Water Resources, CN 029, Trenton, NJ, 08625.

If there are any questions on these matters, please contact James Koroniades of my staff at (609) 292-9880.

Very truly yours,

Ernest J. Kuhlwein, Jr., Chief
Bureau of Hazardous Waste Engineering

Re: RCRA Declassification Request
EPA ID No. NJD000537274
Thomasset Color Division

Dear Ms. Weinstock:

This letter is in response to your request of January 18, 1983 for declassification as a TSD facility under the Resource, Conservation and Recovery Act.

The "wastewater treatment unit", for which your company filed a RCRA Part A application as a treatment facility, has been determined to be under the scope of the New Jersey Water Pollution Control Act, N.J.S.A. 58:10A-1.1 et seq., since the effluent produced from the unit is not hazardous waste and is discharged directly to the sewer. Therefore, your company is no longer included in the New Jersey Department of Environmental Protection's list of existing hazardous waste treatment facilities, and is hereby declassified as a TSD facility.

The influent to your wastewater treatment unit, however, is still considered a hazardous waste. Thus your company is still subject to the Industrial Waste Management Facility (IWMF) requirements of Subchapter 4 of the New Jersey Pollutant Discharge Elimination System Regulations, N.J.A.C. 7:14A-1.1 et seq. You will be notified in approximately 120 days of your obligations as an IWMF under the Subchapter.

The declassification as a treatment facility does not relieve Thomasset of the responsibility for complying with the hazardous waste generation and accumulation requirements of the New Jersey Hazardous Waste Regulations, N.J.A.C. 7:26-1 et seq. Hazardous waste sludges generated from the unit may accumulate on-site for 90 days or less provided that:

- (1) All such waste is, within 90 days or less, shipped off-site to an authorized facility;

- (2) The waste is placed in containers which meet the standards of N.J.A.C. 7:26-7.2 and are managed in accordance with N.J.A.C. 7:26-9.4(d);
- (3) The date upon which each period of accumulation begins is clearly marked and visible for inspection on each container;
- (4) The facility complies with the requirements for owners and operators of N.J.A.C. 7:26-9.6 and 9.7 concerning preparedness and prevention, contingency plans, emergency procedures, and personnel training as per N.J.A.C. 7:26-9.4(g).
- (5) For bulk accumulation of dry hazardous waste materials, the waste pile is managed according to the following:
- (i) the waste pile is no larger than 200 cubic yards; and
 - (ii) the pile shall be placed on an impermeable base that is compatible with the waste; and
 - (iii) run-on shall be diverted away from the pile; and
 - (iv) any leachate and run-off from the pile must be collected and managed as a hazardous waste.

Any accumulation of such sludges for any period longer than 90 days would constitute a hazardous waste TSD storage facility, and would be subject to regulation under N.J.A.C. 7:26-1 et seq.

Finally, the declassification does not relieve the company of the responsibility for compliance with N.J.A.C. 7:26-7.6(f)2 annual reporting. Annual reports shall continue to be submitted to the Bureau of Hazardous Waste Engineering prior to March 1 of the year following the reporting year.

If there are any questions concerning this letter, please contact me at (609) 292-4860.

Very truly yours,

Kenneth Goldstein, P.E., Chief

RE: Determination of Non-RCRA/IWMF Status
Thomasset Colors Div.- EPA I.D. No. NJD 000 537 274
Elementary Neutralization Unit Exclusion

Dear Mr. Miller:

In my letter dated March 20, 1984 (copy enclosed), your wastewater treatment system was classified as an Industrial Waste Management Facility (IWMF). Enclosed is an IWMF worksheet which shows the basis of our determination.

Our review indicates that your "wastewater treatment unit" also qualifies as an "elementary neutralization unit" as defined in 40 CFR 260.10 since it is used for neutralizing wastes which are hazardous wastes only because they exhibit the corrosivity characteristic. IWMFs are required to obtain individual NJPDES/SIU permits pursuant to N.J.A.C. 7:14A-10.5(a)(1)(ii). However, IWMFs which are also classified as "elementary neutralization units" are excluded from the requirement to obtain an individual NJPDES/SIU permit. This exclusion applies provided the following requirements are satisfied:

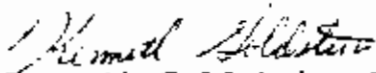

- (1) there is no hazardous residue or sludge generated as a result of the treatment processes, and
- (2) the discharge to the local sewer complies with the State and Federal standard for pH (5.0 S.U. minimum) or with any more stringent standard as may be required by the local sewer use ordinance or regulations.

Any changes in your wastewater characteristics or in your "wastewater treatment unit" must be reported to this office within 30 days of when you are aware a change has or will occur. The NJDEP will determine if the changes will affect your classification as an "elementary neutralization unit".

This action does not relieve Thomasset Colors Division of the responsibility for complying with the hazardous waste generation and accumulation requirements of the New Jersey Hazardous Waste Regulations, N.J.A.C. 7:26-1 et seq. for any other hazardous waste that may be generated on-site.

If there are any questions concerning this letter, please contact Valentin Kouame of my staff at (609) 292-4860.

Sincerely,

Kenneth Goldstein, P.E., Chief
Industrial Pretreatment Section

RE: IWMF Requirements
Thomasset Colors Division - Newark, New Jersey
EPA ID No. NJD000537274 *3/21*

Dear Mr. Miller:

You recently received a letter from the Department dated October 24, 1983, concerning the status of your facility as a TSD facility under the Resource, Conservation and Recovery Act (RCRA). The letter formally delisted your facility as a TSD facility, and reclassified it as an Industrial Waste Management Facility (IWMF). We have been delayed in distributing the requirements and responsibilities for IWMF's as stated in the letter. We expect to inform you of these requirements in the near future.

If there are any questions concerning this letter, please call me at (609) 292-4860.

Very truly yours,

Kenneth Goldstein, P.E., Chief

Telephone No.: (201) 344-7308 RCRA ID No.: NJD 000 537 274
Facility NJPDES No.: _____ Type: DSW DGW SIU X None
Receiving POTW, if any: PVSC POTW NJPDES No. NJ0021016
2. Description of Waste Source(s): GENERATED FROM PIGMENT MANUFACTURING PROCESS.
3. The Waste Source is:
X Intracompany/Intrastate _____ Intercompany/Intrastate
4. Operational Units comprising the treatment works (describe):
Unit #1: TANK 40: RECEIVES THE AQUEOUS PLANT EFFLUENT WHERE NEUTRALIZATION OCCURS.
Unit #2: TANK 47: HOLDING TANK
Unit #3: _____
Unit #4: _____
Unit #5: _____
Unit #6: _____
Unit #7: _____
Unit #8: _____
5. Criteria (For each item indicate Yes, No, N/A, etc.):
- a. Is there an influent wastewater? YES
Is it hazardous? YES
If yes, list waste type. D002
- b. Does the treatment works generate (G), store (S), or treat (T) a wastewater treatment sludge or residue? NO
If yes, which units are involved, and what function do they perform? N/A
Is it hazardous? N/A
If yes, list waste type(s): N/A
- c. Is the unit a "tank" as per NJAC 7:14A-4.3? YES
6. Conclusions: Is the facility an IWMF? YES
7. Comments: THE FACILITY IS NOT A TSD FACILITY BECAUSE THE ONLY HAZARDOUS WASTE ACTIVITY IS ELEMENTARY NEUTRALIZATION.

Re: Thomasset Colors Division
EPA Identification Number NJD000537274
Your letter dated January 31, 1983, copy
enclosed, requesting compliance with
liability insurance requirements

Dear Mr. Simon

We would like to advise you that Thomasset Colors Division operates an elementary neutralization unit only, and is, therefore, exempt from TSD permit requirements at this time. The U.S. EPA Region II Permits Administration Branch notified us in October, of 1981, that review of our permit application did not demonstrate that the facility is one which is required to have a permit at this time, and, subsequently, the agency returned our permit application. We are enclosing a copy of this letter for your information.

We would also appreciate it if you could get in contact with the Permits Branch to possibly develop a mechanism to eliminate the Thomasset Colors Division's name from the listing of permitted facilities.

Should you have any further questions, please do not hesitate to contact me at (513)841-4091.

Very truly yours

Re:

NJ 07106

EPA Identification number:
Facility located at:

Dear Sir or Madam:

The Environmental Protection Agency (EPA) is charged with responsibility for implementing the Solid Waste Disposal Act, as amended, 42 U.S.C. §6901 et seq. (the Act). [Note: Among the statutes amending the Act is the Resource Conservation and Recovery Act (RCRA), 90 Stat. 2795, P.L. 94-580 (1976).]

By notification you informed EPA that you conduct activities involving hazardous waste at the above-referenced facility. By the submittal of a Part A application pursuant to the requirements of 40 CFR Part 122, you requested a permit to conduct such hazardous waste activities.

40 CFR Part 265 sets interim status standards for hazardous waste treatment, storage, and disposal facilities. These standards apply until final administrative disposition of permit application for these facilities has been made. No such final disposition has been made with respect to your facility, and thus the standards of Part 265 apply thereto.

40 CFR §265.143 (amended on April 7, 1982) requires that by the effective date of the regulation (July 6, 1982) an owner or operator of a hazardous waste facility must establish financial assurance for closure of the facility, as well as post-closure monitoring. As of December 15, 1982, information available to EPA indicates that your facility had not submitted the documents necessary to comply with this requirement. You are therefore in violation of 40 CFR §265.143.

40 CFR §265.147 (amended on April 17, 1982) requires that by the effective date of the regulation (July 17, 1982) an owner or operator of a hazardous waste facility must establish financial responsibility for bodily injury and property damage to third parties caused by sudden accidental occurrences arising from operations of the facility. As of December 15, 1982, information available to EPA indicates that your facility had not submitted the documents necessary to establish compliance with the liability insurance requirement. You are therefore in violation of 40 CFR §265.147.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION II

26 FEDERAL PLAZA

NEW YORK, NEW YORK 10278

Subject: Nonregulated Facility

EPA ID No: *NSD000537274*

The Region II office of the U.S. Environmental Protection Agency (EPA) has received a Part A application from your facility for a permit to treat, store or dispose of hazardous wastes. This application was submitted pursuant to Section 3005 of the Resource Conservation and Recovery Act (RCRA) (42, USC §6925). The information supplied on the application, does not demonstrate that the facility is one which is required to have a permit at this time. Accordingly, the agency is returning the application.

A RCRA hazardous waste permit is required for facilities who treat, store or dispose of hazardous wastes. A permit is also required for generators and transporters who store regulated quantities of hazardous waste for more than 90 days and 10 days respectively. The bulk of generators and transporters of hazardous waste are exempt from the permit requirements. However, they are subject to the notification and manifest requirements of the RCRA regulations. They are also required to obtain and utilize an EPA Identification Number.

This letter does not operate to relieve you from your responsibility to comply with the requirements of the Act or to accompanying regulations. Should you believe that the information presented to the agency to date does not provide an accurate picture of hazardous waste activities at your facility, or if you have any further questions regarding the contents of this letter or the basis for our determination, please contact the EPA Information Services Center, Room 302, 26 Federal Plaza, New York, New York or call (212)264-3772.

I would also like to remind you that should you intend to initiate any hazardous waste activities in the future, you are required to obtain an EPA Hazardous Waste permit prior to the initiation of any operations.

Sincerely yours,

Richard A. Baker

Re: Application for a Hazardous Waste
Permit for Thomasset Colors, 120
Lister Avenue, Newark, New Jersey
07105, EPA Identification Number
NJD000537274

Gentlemen:

Further to our letter and RCRA permit application of November 18, 1980, we would like to provide the following additional information:

Thomasset Colors operates an elementary neutralization unit as defined by 40 CFR Part 260, Section 260.10(15a)(1) and (11) and is not otherwise engaged in the treatment, storage or disposal of hazardous waste. Accordingly, it is our understanding of the RCRA amendments published in the Federal Register of November 17, 1980 (40 CFR Part 122, Section 122.21(d)(2)), that no permit is now required.

Very truly yours,

Ulrike B. Weinstock

Re: Application for a Hazardous Waste Permit

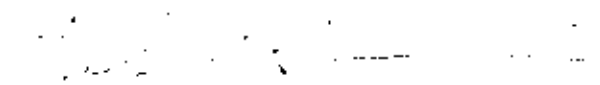

Gentlemen:

Pursuant to the requirements of the Resource Conservation Recovery Act (RCRA), Public Law 94-580, we are submitting herewith completed Form 1, and Form 3 of Part A, Hazardous Waste Permit Application.

The neutralization process described in Form 3 is presently being converted to a totally enclosed process which we believe is excluded from permit requirements under 40 CFR Subpart B, 122.21 (2)(iv) of the RCRA regulations.

We expect this conversion to be completed in the near future and to send you written notification of its completion in due course. Because of the last minute discovery that the above-mentioned conversion could not be completed by November 19, 1980, we are unable to provide Topographic Map, Form 1, Item XI, and Facility Drawing and Photographs, Form 3, Items V and VI, at this time. They will be forwarded to you as soon as they are available in the event the conversion is not completed.

Sincerely,

Robert A. Harris
President

RAH/bi

*Anticipated completion date is January 15, 1981.

RE: Hazardous Waste TSD Facility Classification and Annual Report Requirements
(N.J.A.C. 7:26-7.6(f)2) for U.S. Army Comm Electr Matl Read Command,
Fort Monmouth, New Jersey, EPA ID NO. NJD000537274

Dear Mr. Dewar:

9H
HAWKINS
9/8/83

The Bureau of Hazardous Waste Engineering has reviewed your letter dated March 1, 1983 in which you indicate that the above referenced facility did not treat hazardous waste or store waste for greater than 90 days in calendar year 1982. This letter also follows up on a June 30, 1983 phone conversation between Mr. Desai, Environmental Engineer, CECOM and Mr. Walter Nedick of my staff. As confirmed by Mr. Desai, it is this Bureau's understanding that the above referenced facility seeks to be delisted from classification as a hazardous waste treatment, storage or disposal (TSD) facility to "generator only" status.

According to Bureau records supplied by the USEPA, the RCRA Part A permit application lists the following hazardous waste activities:

- A. (S01) storage in containers of 1700 gallons;
- B. (T01) treatment in tanks of 30,000 gallons per day of waste code D000.

As reported by Mr. Desai, the "T01" activity was discontinued in 1981, and had consisted of neutralizing wastes in tanks prior to sewerage the supernatant.

Item A

The Bureau has determined based on the information provided in your letter dated March 1, 1983 and telephone conversation with Mr. Desai that the above referenced facility is eligible for the S01 "delisting to generator only" status provided the following requirements of N.J.A.C. 7:26-9.3 are complied with:

1. All such waste is, within 90 days or less, shipped off-site to an authorized facility or placed in an on-site authorized facility, as defined at N.J.A.C. 7:26-1.4.

Description of codes used on the report:

Universes	Description of Universes
Generator	Indicates that the facility is a Large Quantity Generator (LQG), Small Quantity Generator (SQG), Conditionally Exempt Small Quantity Generator (CESG), or not a generator (N).
Transporter	Indicates that the facility transports waste subject to RCRA regulations. (Y) indicates that the facility is in this universe).
Operating TSDF	Indicates that the facility is a Treatment, Storage or Disposal facility subject to any type of enforcement. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment)
IC in Place	Indicates that the facility has Institutional Controls in place. (Y) indicates that the facility is in this universe).
EI Indicator (HE / GW)	Indicates that the facility has controls in place for Environmental Indicators. HE - Human Exposures (Y) indicates the exposure exists and is under control; (Y) indicates the exposure exists and is not under control; (N) indicates the exposure does not exist GW - Groundwater Release (Y) indicates the exposure exists and is under control; (Y) indicates the exposure exists and is not under control; (N) indicates the exposure does not exist
Short-Term Gen	Indicates that the facility is a short term or one time event generator and not generating from ongoing processes.
Transfer Facility	Indicates that the facility transfers hazardous waste.
Offsite Receiver	Indicates that the facility, whether public or private, currently accepts hazardous waste from another site (site identified by a different EPA ID).
HSM	Indicates that the facility manages hazardous secondary materials (e.g. spent material, by-product or sludge) that when discarded, would be identified as hazardous waste.
Subpart K	Indicates that the facility has opted into the subpart K laboratory rule. It then specifies the type of facility (C - College or University; H - Teaching Hospital; N - Non-profit Research Institute; W - withdrawal from the rule)
Full Enforcement	Indicates that the facility is a Treatment, Storage or Disposal facility which is part of the Full Enforcement universe. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment)
CA Workload	Indicates that the facility is part of the Corrective Action Workload universe. (Y) indicates that the facility is in this universe).
Active State Gen	Indicates that the facility is an Active State Generator. (Y) indicates that the facility is in this universe).
Converter	Indicates that the facility is a Converter Treatment, Storage or Disposal facility. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment)
State TSDF	Indicates that the facility is a State Treatment, Storage or Disposal facility. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment)
State Unaddressed SNC	Indicates that the facility is a State Unaddressed Significant Non-Complier. (Y) indicates that the facility is in this universe).
State Addressed SNC	Indicates that the facility is a State Addressed Significant Non-Complier. (Y) indicates that the facility is in this universe).
State SNC w/ Compl. Sched	Indicates that the facility is a State Significant Non-Complier with a Compliance Schedule. (Y) indicates that the facility is in this universe).
EPA Unaddressed SNC	Indicates that the facility is an EPA Unaddressed Significant Non-Complier. (Y) indicates that the facility is in this universe).
EPA Addressed SNC	Indicates that the facility is an EPA Addressed Significant Non-Complier. (Y) indicates that the facility is in this universe).
EPA SNC w/ Compl. Sched	Indicates that the facility is a EPA Significant Non-Complier with a Compliance Schedule. (Y) indicates that the facility is in this universe).

* Note: Penalty amount may not reflect all violations cited.

FOIA Report of Non-Sensitive Compliance Monitoring and Enforcement Data

Report run on: January 7, 2014 - 2:35 PM

Page 4

Description of codes used on the report:

ACCESSIBILITY - indicates the reason why the handler is not accessible for normal RCRA tracking and processing (previously called Bankrupt Indicator):	
Code	Description
B	Indicates that the handler has filed for bankruptcy and bankruptcy litigation is in process.
C	Indicates that all RCRA responsibilities for permitting/closure, corrective action, and compliance monitoring and enforcement at the facility have been formally transferred to the CERCLA program or state equivalent.
F	Indicates that all responsible parties (owners/operators) for the handler have filed the country or are otherwise not available for prosecution.
L	Indicates that the handler's case is tied up in litigation to the extent that further progress in achieving RCRA compliance through normal enforcement is not possible.

NON-NOTIFIER - indicates that the handler has been identified through a source other than Notification and is suspended of conducting RCRA-regulated activities without proper authority:	
Code	Description
E	Indicates that the handler was initially a non-notifier, subsequently determined to be exempt from requirements to notify.
O	Indicates that the handler is a former non-notifier.
X	Indicates that the handler is a non-notifier.

Evaluation Type	Type Description
CDI	CASE DEVELOPMENT INSPECTION
CEI	COMPLIANCE EVALUATION INSPECTION ON-SITE
NRR	NON-FINANCIAL RECORD REVIEW

* Note: Penalty amount may not reflect all violations cited.
